We revere their memory and weep over their deaths. The Board of Directors of the National Association of Broadcasters has been in session for the past two months after its 40th annual convention. At this time, we are again faced with the question of how to honor the memory of those who have died in the past year. The Board has decided to hold a special session in the fall to discuss this matter. It is our hope that this session will result in a plan to honor the memory of those who have died in the past year. We are sure that the Board will find a way to do this in a fitting and appropriate manner.
